DARSHAN SARAVANAN

Chennai, Tamil Nadu | +91 9789010449 | darshan160406@gmail.com
LinkedIn: darshannns | GitHub: Darshan160406

PROFESSIONAL SUMMARY

Pre-final year Computer Science Engineering student with hands-on experience in full-stack development, artificial intelligence, machine learning, and enterprise software solutions. Completed technical internships at Ashok Leyland and Inspires. Strong problem-solving abilities with excellent communication and teamwork skills. Proficient in Agile methodologies with ability to rapidly learn and adapt to emerging technologies.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering, CGPA: 8.1/10.0 Sep 2023 – May 2027
Rajalakshmi Engineering College, Chennai, Tamil Nadu

Higher Secondary Certificate (96%, School First Rank) May 2023
Sri Sankara Vidyalaya Matriculation Higher Secondary School, Chennai

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, Java, JavaScript, TypeScript, SQL
- **Web Technologies:** HTML5, CSS3, React, Next.js, Node.js, Express.js, RESTful APIs, Responsive Design
- **Databases:** MySQL, MongoDB, PostgreSQL, NoSQL, Firebase, Turso, Database Design
- **Cloud & DevOps:** Git, GitHub, Docker, AWS, Azure, Vercel, CI/CD Pipelines
- **AI/ML:** TensorFlow, PyTorch, XGBoost, LSTM, Google Gemini, LLM Integration, Edge AI, Machine Learning
- **Frameworks & Libraries:** Django, Flask, Tailwind CSS, shadcn/ui, Framer Motion, Drizzle ORM, JDBC
- **Testing:** Jest, Pytest, Unit Testing, Integration Testing, Debugging
- **Methodologies:** Agile, Scrum, Object-Oriented Programming, Data Structures and Algorithms
- **Soft Skills:** Problem Solving, Teamwork, Communication, Leadership, Quick Learner, Adaptability

PROFESSIONAL EXPERIENCE

Ashok Leyland – Digital Trainee Sep 2025 – Oct 2025
Ennore, Tamil Nadu

- Collaborated with cross-functional teams using Agile methodology to engineer Gatepass Management System, reducing driver authorization processing time by 60%
- Developed AR/VR application for 3D overlay assembly verification enabling real-time quality checks and error reduction
- Built and deployed LLM-based error detection system leveraging artificial intelligence for automated troubleshooting
- Demonstrated strong communication and leadership skills; received Letter of Recommendation and extension offer

Inspires – Web Development Intern Jun 2025
Remote

- Mastered full-stack web development including responsive design, RESTful APIs, and database integration
- Built production-ready applications including task management systems, reminder apps, and habit trackers
- Collaborated with team members demonstrating strong communication and problem-solving abilities

PROJECTS

IntelliQuiz Pro – AI-Powered Study Assistant *Next.js, React, TypeScript, Gemini AI*

- Built intelligent quiz generation platform using Google Gemini 2.5 Flash AI with document processing pipeline
- Integrated Turso database with Drizzle ORM, authentication system, and analytics dashboard with interactive visualizations
- Implemented unit testing with Jest and debugging for production-ready deployment on Vercel

FinSight – AI Financial Dashboard with Predictive Analytics *Next.js, Node.js, XGBoost, LSTM*

- Developed machine learning platform with XGBoost for transaction risk classification achieving 85% precision under 200ms
- Implemented LSTM neural network for 7-day spending forecasts with 82% confidence using Python and TensorFlow
- Integrated Plaid API, Mapbox geolocation, Gemini AI recommendations; built during 24-hour hackathon demonstrating teamwork

Carbonet – Sustainability Tracker Dashboard *Next.js, TypeScript, Turso, Tailwind CSS*

- Architected full-stack carbon footprint monitoring application with real-time emission calculations and data visualization
- Created interactive charts with benchmark comparisons and AI-powered sustainability recommendations using React
- Implemented authentication system with better-auth, report generation, and responsive design with Tailwind CSS

Tender Management System *Java, MySQL, JDBC, Java Swing*

- Digitized tender processes with automated bid tracking, vendor management, and real-time database interactions using JDBC
- Applied object-oriented programming principles and data structures for scalable system architecture

ACHIEVEMENTS & CERTIFICATIONS

- Presented AI-Powered Smart Bandage project (ESP32-CAM, Edge AI, IoT) at Design Thinking Expo, Rajalakshmi Engineering College
- Participated in multiple hackathons at VIT Chennai, SVCE Chennai, Saveetha Engineering College with production-ready solutions
- Tech Associate and leadership role at Blockchain Club, Rajalakshmi Engineering College
- Certifications: Front-End Web Development (Coursera), HTML/CSS/JavaScript for Web Developers (Johns Hopkins University), Google Cloud Platform, Infosys Springboard
- School First Rank in Higher Secondary Examination demonstrating academic excellence and dedication
